Note, that in a Bissextile or Leap-year, the Number of Sundays after *Epiphany* will be the same, as if *Easter Day* had fallen one Day later than it really does. And for the same reason, one Day must, in every Leap-year, be added to the Day of the Month given by the Table for *Septuagesima Sunday*: And the like must be done for the First Day of *Lent* (commonly called *Ash Wednesday*) unless the Table gives some Day in the Month of *March* for it; for in that case, the Day given by the Table is the right Day.
