# Introduction

Bach's cantatas are among the greatest achievements in the history of church music, yet with the exception of the expanded chorale from Cantata 147 (usually sung today to the words "Jesu, joy of man's desiring"), Bach cantata movements are seldom heard in liturgies, even though portions of other large collections (e.g., the Byrd *Gradualia* or the motets of Palestrina) appear with regularity on church music lists. Why is this the case?

The *Bach on a Budget* project was undertaken to address some of the likely causes for this omission, including selection, language, and accompaniments. For more information on the scope of the project, go to the following URL from the Bach Cantatas Website (BCW):

[http://www.bach-cantatas.com/Articles/Bach-on-a-Budget\[Harney\].pdf](http://www.bach-cantatas.com/Articles/Bach-on-a-Budget[Harney].pdf)

This Guide focuses on the issue of selection. Due to the nature of the *Bach on a Budget* project, the suggestions contained in this Guide are confined to those which it is felt can be effectively reduced to organ alone, organ and one obbligato instrument, or organ and two obbligato instruments.

There is so much music in Bach's roughly 200 church cantatas that it is difficult knowing where to begin the selection process. The prospect of sifting through roughly 170 choruses, almost 200 chorales (of differing types), 425 arias, and over 80 duets and trios searching for movements with texts suitable for a particular set of lessons in the Revised Common Lectionary (RCL) is both daunting and time-consuming. To this end, Part I identifies appropriate selections for each occasion in Year B of the RCL. It should be noted that this extends beyond the occasion for which any specific cantata was written (e.g., if a movement from an Epiphany cantata has a text appropriate for Advent, that movement will be shown as suggested for the applicable Sunday(s) in Advent). After this, a listing of choruses, chorales, and arias/duets for general use is provided.

For each suggested chorus, the cantata and movement numbers are provided, as well as the German title of the chorus. This is followed by an estimated vocal difficulty, and the lectionary text to which the chorus is considered appropriate.

For each suggested chorale, the cantata and movement numbers are provided, as well as the German title of the chorale and the lectionary text to which the chorale is considered appropriate. There are three types of chorales in the Bach cantatas - simple, embellished, and extended. The form of the simple chorale is well-known. The embellished chorale is effectively a simple chorale embellished with obbligato instrumental lines. Sometimes this is a single obbligato line (often, violin), while in other cases it takes the form of obbligato brass parts. Finally, the extended chorale is a form in which the phrases of a simple chorale are separated by instrumental interludes (the chorale sung today as "Jesu, joy of man's desiring" is an extended chorale). For each suggested chorale, the applicable form is provided in the table.

For each suggested aria/duet/trio, the cantata and movement numbers are provided, as well as the German title of the movement and the lectionary text to which the movement is considered appropriate. For these suggestions, the fourth piece of information is the vocal part(s) pertinent to the selection.

It will be noticed that some suggestions are in black, while others are in red. The latter are considered especially appropriate for the text specified in the table, whereas the former are considered appropriate, but are less directly tied to the lectionary text.

Part II of this Guide provides greater detail on each suggestion contained in Part I. Included in this section are:

- Original occasion;
- First performance;
- Key and meter;
- Performance time;
- Original instrumentation;
- Suggested reduction combinations;
- English translation;
- Vocal difficulty;
- Chorale melody (for chorale suggestions);
- Any notes thought to be helpful.

As they are developed, scores and reductions of suggestions contained in this Guide will be made available for free download on the BCW at

<http://www.bach-cantatas.com/Scores/IndexScores-IBC.htm>

In the case of chorales, where the chorale melody is one on which Bach based a chorale prelude, a score of the chorale will be provided in the original key, as well as in the key of the chorale prelude. Translations in Part II are by Francis Browne, and used by permission (Source: © Bach Cantatas Website: <http://www.bach-cantatas.com/>).

It is hoped the combination of this Guide and the scores will encourage choir directors to incorporate music from Bach's cantatas into the liturgies of today.
